FOR THE INTEREST OF ALL.

In his address of welcome to the degates representing the different countries in North and South America, with but few exceptions, Presiden Wilson wisely took the opportunity to impress upon the visitors the fact that the purpose of the conference was not solely for the advancement of the in-terests of this country, but for the anxious that through combined ef-

During the debates in the Hungarian parliament the army contract scandals were given an extensive airing, although few new facts were developed. There was a unanimous de-mand from the speakers for a com-plete public exposure of the culprits. The chief criticism was directed at the graft in clothing, shoes, and canne meat. One of the meet contractors who is alleged to have supplied bad meat at a profit to himself of over \$100,000, has just been imprisoned. It was also developed that peasant farmers who sold horses and grain to contractors on army requisitions have in many cases either not been paid at all, or paid only a small part of the One speaker charged that the army contractors were endeavoring to im-pose slience on the press by giving out pose silence on the pre-extensive advertising.

This additional territory would have brought talk to the circumstances not far tory would have brought talk to the control of the control o thing, under the circumstances not far tory would have brought Italy short of a miracle. The Norwich Bulletin believes he can do as much with changing the sheltered Austrian har-

sition at the best. Under this ar-rangement it is considerably more than that and Dr. Pollock has no sinecure. Perhaps he can redeem the leg-islature and prove the experiment worth enlarging. If he does he will become one of Connecticut's most cap-able and useful citizens. May he achieve aboundant success, - Bristol

All day by motor lorry and railway truck supplies for the troops are sent out from these base depots to stores as near as possible to the firing line. And just as reserves are accumulated in the docks, so reserves are accumu-lated near the front, since an accident to the rallways might cut off the fight-

ing soldiers supplies.

On one occasion there was a delay on the railways of 36 hours, but not only did the soldier at the front get all his food and ammunition, but he did not even have to draw on the reserves I have mentioned; regimental stores were sufficient for his need, Evwas to re-which cuts erything goes by clockwork.
